PREFACE.

THIS Study in United States History is intended to suggest to the student in preparation every reasonable form, matter, or extent of questions that pertain to an examination in United States History. A very large part of them can be directly answered from a study of my "Elements of United States History," but the General Review is formed from "topics," and requires more knowledge and reading than can be provided in an abstract of the subject.

The means for such information as is there suggested are very generally accessible to all persons in this country.

H. C. SYMONDS.

STUDY IN HISTORY.

TABLES I.–III.

1 Name the Periods of United States History.
2 State the theories of Columbus.
3 How many voyages did Columbus make?
4 Name the Spanish Explorers, 1499 to 1520.
